### EXAMINER'S AMENDMENT

An examiner's amendment to correct an obvious typographical error appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In line 4 of claim 16, - - post and the outer post. - - has been entered after "inner".

Claims 1-16 are allowed.

The corrected drawing sheet filed August 17, 2004 has been approved.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to show a chair arm with an adjustable height comprising a locking device reciprocally slidably mounted in the through hole and extending into inner post to selectively hold the outer post in place, the locking device including: a button reciprocally moveably received in the through hole in the outer post and extending out of the outer post for a user to operate the locking device; a protrusion laterally extending from the button and selectively slidably received in the first slot in the inner post, the protrusion including two opposite sides each having at least one buckle laterally

extending therefrom, the buckles selectively engaged to a corresponding one of the first indentations in the inner post to hold the outer post in place relative to the inner post; a shank longitudinally extending from the protrusion through the channel in the end piece, the shank has two opposite sides each having a stopper laterally extending from a free end after extending through the channel in the end piece, the two stoppers abutting the end piece to prevent the locking device from detaching from the chair arm; and a resilient member compressively sleeved on the shank between the protrusion and the end piece to provide a restitution force to the locking device after being pressed, in combination with other specifically claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
